

Join us at MeatEx

The Innova software team at Marel Canada invites you to our 45 minute presentation on digital transformation in Meat Processing and its effects on the order to cash cycle. The presentation will be hosted by Francis Chartrand, VP sales for Marel Canada and Alexander Feld, Innova software sales consultant.

Agenda:

- Introduction to Marel
- What is the objective behind digital transformation and why is it important to your bottom line
- Order to cash cycle in meat processing
- How does Marel's food processing software apply to me?
- Question and answer session, open discussion

We look forward to meeting with you during this exciting event:

September 29th at 11:00am
